

Friends of Newton Primary School

Newsletter 1- 22nd January 2020

Firstly, welcome to the first of our newsletters 😊

What does Friends of Newton do?

As many of you are aware, we are a small group of parents, carers and grandparents whose ultimate aim is to collectively raise money for Newton Primary School. With your help we can raise money helping to improve the school environment on a daily basis for ALL of our children, not just now but for years to come!

What are we raising money for this year?

This year, the money that we raise is going to be put into developing the playground area. You may recall we won a competition a while back from a company called Uni-Play. They specialise in playground graphics and have a varied selection of attractive graphics all learning based that will brighten the playground up making it a welcoming space to encourage and further the children's imaginations. We hope to have enough funds in the kitty by the end of this academic year to fulfil our mission and bring the playground back to life!

What events are coming up?

In order to raise the money we plan to host a number of events. We are already on our way with what we raised from the Halloween disco last term which gave us a profit of £170.42. This term, we are starting off with a Valentines Disco. Our next event will be an opportunity for a 'special person' to come and have lunch with the children for Mothers Day – more details to follow. Other events will include coffee morning/afternoon with cake stalls, more disco's, BBQ, summer fete, raffles and selling on of outgrown uniform– we are always open to suggestions! We cannot achieve any of this without your continued support so for this we thank you in advance.

Find out what's happening?

You can keep up to date with what's going on by keeping an eye on our facebook & twitter page too – Friends of Newton Primary. If you don't have social media then keep an eye out for the posters dotted around with the next event on. We will also be advertising in the notice board as you enter school.

If you'd like to come and join us in helping in any way that would be great!

Many thanks, Friends of Newton Group
