

How to Download and Use the Juniper App

A quick guide for Newton Primary School families

1

Check your email

Look out for a welcome email from Juniper asking you to create an account.

2

Tap Create Account

Open the email, click "Create Account", complete the starred fields and create your password.

3

Download the app

Go to the App Store or Google Play and download the app called "Juniper Education". Look for the purple J icon.

4

Log in

Open the app and log in using the email address held by school and the password you have just created.

5

Enter your code

Multi-factor authentication will send a code to your email. Enter this code in the app when prompted.

6

Continue

Ignore the recovery codes and press "Continue" to finish logging in.

7

Turn notifications on

Please allow notifications on your phone and stay logged in so you receive school messages.

8

Need help?

If you have not received a welcome email, please send your name, your child's name and a valid email address to info@newton.derbyshire.sch.uk and we will help you get set up.

Together for a brighter tomorrow

You may receive test messages while we check everything is working. Thank you for your patience and support.
